> is now before congress. This bill proposes to tax all farm property whose value is in excess of \$10,000 at a rate of 1 per cent. This bill is aimed at agriculture and has obtained its present position through fights which have been put forth by large manufacturing interests anxious to be relieved of taxes which have been placed on the manufacture of goods. The Illinois Agricultural association and the National Federation of Farm Bureaus are working hard against the bill because its passage would mean a well as farm owner, because if the farm owner has his taxes doubled, the renter must pay an increase in cash or grain rental. The Mercer county farm bureau is spending every effort in an attempt to kill the bill. Such action by organized agriculture is one of the many intangible results and benefits that are being obtained through coop-erative action.
